

How to setup your mobile to watch the cameras

1. For Android, Install iVMS-4500 app. For iPhone, install Hik-vision app
2. Once installed, open the app and the next screen will ask what region you live in (choose USA, America)

3. Press the menu icon at the left upper corner
4. Select Devices
5. Press the + icon then Manual adding

6. Fill out the fields:

- a. Alias: A name to identify your site: (*) See email
- b. Register Mode. IP/DOMAIN
- c. IP Address: (*) See email
- d. Port: 8000
- e. User name (case sensitive): (*) See email
- f. Password (case sensitive): (*) See email

7. Tap the Save Icon

8. Tap Start Live view and you can watch the cameras

The next times you want to watch the cameras, just open the app and will show them.

You can select to watch in 1:1; 2:2; 3:3; 4:4 according how many cameras you want to see
